

# Andrew Meyers

## Software Engineer

(305)-335-4689 | [andrew.meyers.j@gmail.com](mailto:andrew.meyers.j@gmail.com) | [github.com/ajmeyers](https://github.com/ajmeyers) | [linkedin.com/in/andrewjohnmeyers](https://linkedin.com/in/andrewjohnmeyers)

### Work Experience

#### Frontend Developer @ Aptean

March 2020 – July 2020 // Atlanta, GA

- Implemented small features and resolved bug issues for a work order and equipment tracker application used for manufacturing
- Developed UI components using Ext JS.
- Collaborated with stakeholders to confirm creative proposals and design best practices.

#### Technical Business Analyst @ Anthem (UST Global)

March 2019 – December 2019 // Atlanta, GA

- Processed user access requests for Anthem employees to access Express Scripts application.
- Conducted analysis and troubleshooting of access issues and software errors for Express Scripts users through email communication.
- Played critical role in assisting with development and support of a VBA tool which condensed user data from various Anthem applications into a text file to be consumed by other Anthem tools.

#### Associate Software Developer @ Equifax (UST Global)

May 2018 – February 2019 // Alpharetta, GA

- Developed Test Classes using Apex for Salesforce Sandbox Orgs.
- Practiced and developed comprehensive Salesforce skills with Trailhead.
- Provided ongoing support for Equifax's Business Connect Application, a Salesforce Cloud Application.
- Monitored Support Tickets using ServiceNow and exported ServiceNow ticket data into JIRA.

#### Software Engineer @ Tata Consultancy Services

February 2016 – February 2017 // Cincinnati, OH

- Implemented proof of concepts under management requirements for potential Tata Consultancy Services' SAP clients, also built wireframes and UI specifications using Build.me.
- Developed SAPUI5 enterprise Web applications using JavaScript, HTML/CSS, and Open Data Protocol with focus on front end development and user experience for SAP clients.
